To achieve this, we abide by a strict 48-hour cancellation policy for all appointments whether made via email, in person, online or by telephone. Patch Tests

For your safety, we require you to have a patch test before we can provide you with any tinting, waxing, semi-permanent makeup, spray tanning and laser/ IPL services.

All the above treatments require a minimum of 48 hours before treatment can commence.

Following the appropriate waiting period, we will be happy to treat you safely.

If you have overly sensitive skin or any specific allergies that may be affected by our treatments or products, we also recommend a patch test. You will be asked to fill out a medical questionnaire before your treatment. This is for use by your therapist to ensure your treatment is 100% safe.

We cannot be held responsible if you do not disclose any medications or condition that may affect your treatment. Please inform your therapist or technician of any changes in your health on subsequent visits.

If you are unsure if you can have a particular treatment for any reason, please speak to a member of staff at least 48 hours before your appointment.
